City Chapters is a curated design reference for 2026, showcasing how cabinet fronts, handles, and colors can be combined and customized. Each concept serves as a starting point, with further options available through your HOLIKE design consultant.

CONCORD

Inspired by Walden, the Concord Collection celebrates harmony with nature and the freedom born of simplicity.

Concord Collection draws inspiration from Walden, embracing Thoreau's philosophy of returning to nature and finding freedom through simplicity. It captures the essence of serene living — pure, warm, and effortlessly refined.

The new Concord series continues our signature powder-coating craftsmanship and minimalist design, now extending seamlessly from doors to walls and cabinetry. Soft curves, 45° mitre joints, and a floating system together create a sense of lightness and sophistication throughout the home.

Made with eco-friendly powder coatings.

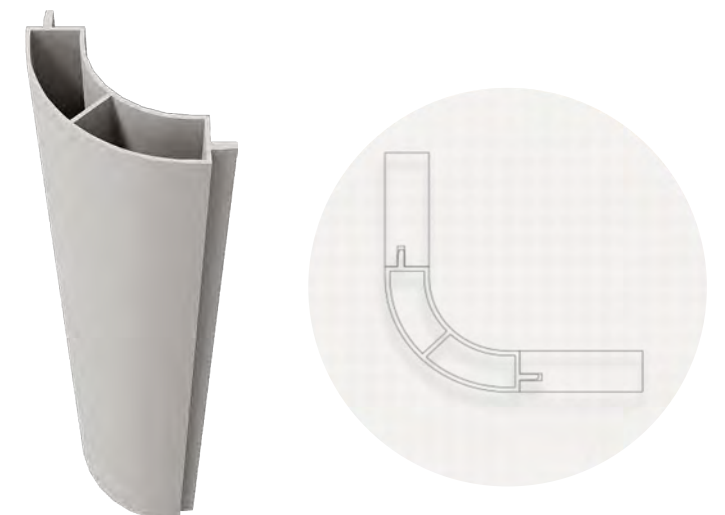

Concord ensures durability and safety without harmful metals.

Every surface is beautifully unified in color and texture, offering a calm and harmonious aesthetic that elevates your everyday living.

The WE Curved Decorative Column.

The column replaces traditional sharp corners with smooth arcs, giving the cabinetry a more seamless and refined appearance. When paired in matching colors, it enhances visual unity and creates a soft, flowing transition throughout the space. The curved corner element adds elegance and safety to exposed edges, blending aesthetics with practical protection for a warm and comfortable home.

..... floating dressing table

When space is simplified, every element finds harmony and calm.
The design language is refined yet understated,
achieving balance with subtle elegance.

HELSINKI

Drawing on Mies van der Rohe's "flowing space" philosophy, the Helsinki Collection dissolves boundaries between living areas.

Inspired by Mies van der Rohe's theory of "flowing space," the Helsinki Collection breaks boundaries between areas, creating a free, open, and fluid living experience. The design encourages interaction and continuity — where living, social, and leisure spaces blend in harmony. Soft hues set the tone for a calm and balanced interior, infusing the space with warmth and artistry.

Crafted with high-gloss PET finish, the panels feature food-grade polymer materials that are environmentally safe, resistant to yellowing and aging, and beautifully reflective — combining modern aesthetics with lasting performance.

Looking to give your wine cabinet the perfect finishing touch with a distinctive handle?

We offer multiple options that match the FS-HC concealed door frame handles in color and style, ensuring a harmonious, unified look.

Soft, rounded edges provide a gentle touch while enhancing safety. Tailored to fit your cabinet's width, depth, and material for perfect balance and comfort.

— — the utility balcony designed for modern rhythm

Our utility balcony blends function with style. Thoughtfully divided into zones for laundry, drying, ironing, and storage, it streamlines daily chores into a seamless workflow, creating a neat, efficient, and comfortable space you'll enjoy using every day.

BERLIN

Our bestselling Berlin Collection is built for versatility, meeting the core demands of contemporary living while maintaining a refined, stylish presence.

The Berlin Collection, our bestseller, is designed for the diverse lifestyles of the new generation, fulfilling the essential needs of those seeking both style and functionality. The series features a soothing aroma walnut tone as the main color, which runs through the entire cabinetry and wall protection elements, creating a warm and inviting atmosphere. The door panels are available in two color tones, UV Silk Grey and Light Sand Serene Grey, offering a balance of cool and warm hues.

The Berlin Collection offers wooden doors MMA-219P (PT) and MMA-220P (PT), providing four door-wall configuration options based on the foundation of cool and warm color tones.

● Hanging Cabinet Module

Study Room

The study room adopts a semi-open layout, creating an interactive area for family members. The semi-open glass walls enhance the space's transparency, seamlessly blending the living and dining areas into the study, which indirectly expands the overall space. The study features a classic light grey tone, accented with Silk Grey drawer fronts for a refined touch. The cabinetry includes an extra-wide desk, designed to accommodate two family members' reading and work needs.

The Entryway's Subtle Details:

A corner bench allows for easy movement when changing shoes, while also creating a quiet moment of personal pause. The scent of morning coffee and the presence of books come together in this small corner, turning it into a calm and private retreat.

SUZHOU

The Suzhou Collection adopts a clean, double-line kitchen layout, creating a space where efficiency and fluid movement come together.

Suzhou Collection

The Suzhou Collection embraces a modern double-line kitchen layout, where functionality meets effortless flow. The split island design breaks away from the monotony of traditional kitchens, creating a sense of openness and balance. A thoughtfully designed beverage table module combines decorative metal detailing with practical drawer storage, built-in water dispensers, and integrated appliances — all crafted to meet real everyday needs while enhancing the kitchen's refined aesthetic.

PARIS

Inspired by Mies van der Rohe's theory of "flowing space," the Helsinki Collection breaks boundaries between areas

Paris Collection

The collection embraces a creamy monochrome palette, paired with Morandi teal and Iris white. Accented with Nepal Gold patterns, it creates a soft, relaxed French ambiance that reflects today's pursuit of a soothing and free-spirited lifestyle.

The use of arched door designs brings a sense of flow and grace to the space. Combined with refined French corner details, it creates a subtle sense of ceremony in work and leisure moments, while infusing the space with a rich French ambiance.

The result is a living environment that blends cultural depth, artistic charm, and a touch of vintage allure.

Front Door

MN-ZX-01

MN-TM-01

Inspired by French elegance and romance, the MN-XS series combines arched and rectangular lines to create a harmonious design language. From the soft curves of half arches and the crystal-like sheen of glossy glass to the layered double arcs and delicate French corner motifs, every detail reveals a fusion of vintage charm and modern artistry. The collection brings a sense of elegance, freedom, and refined French flair to any interior space.

KYOTO

Kyoto Collection is built on the principle of simplicity as a functional choice, where integrated spatial modules streamline everyday living and elevate the experience of home.

Kyoto Collection

In the Kyoto Collection, a traditional L-shaped kitchen is seamlessly connected to a linear island, meeting the functional needs of cooking while offering a social and beverage area. The extended bar counter serves as a casual dining zone, creating a multifunctional social kitchen for modern living.

SHANGHAI

The Shanghai Collection draws from Eastern artistry to shape a modern aesthetic, blending quiet harmony with refined craftsmanship.

Shanghai Collection

Drawing inspiration from the elegance of the East, the Shanghai Collection celebrates a refined balance between order and emotion. The design reinterprets oriental grace through modern craftsmanship, creating a tranquil yet sophisticated living atmosphere.

Natural textures and fluted panels evoke the warmth of solid wood, bringing rhythm and depth to the space. Their vertical lines flow like gentle brushstrokes, outlining a serene home that feels both grounded and poetic.

Merging classical aesthetics with contemporary restraint, Shanghai Collection embodies timeless elegance — calm, balanced, and gracefully understated.

An I-shaped layout with a compact island creates an efficient work flow.

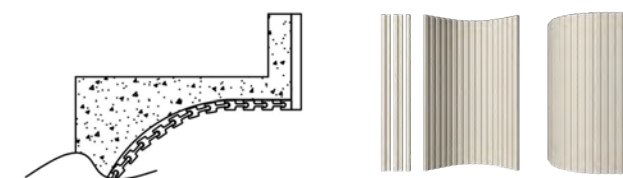

The island serves as a dedicated prep zone with a sink, faucet, and water purifier, making daily routines effortless. Warm white textures, paired with deep brown linear grains and natural wood, shape a cozy, tranquil new-oriental aesthetic.

1, Built with a three-point pivot structure, each joint rotates freely, adapting seamlessly to curved walls — from soft arcs to S-shapes and wave-like surfaces.

2, Flat end sections ensure smooth alignment with standard wall panels for effortless combination.

3, Available in heights up to 3 meters, offering flexibility for different project needs.

Design Concept

To better meet design needs for curved wall modules, we combine arc-shaped panels with metal shelving, creating a rich contrast of materials. This pairing enhances texture and expands the possibilities for curved-module applications.

NICE

Drawing from the romantic essence of Goya's work, the Nice Collection expresses French vintage elegance with soft contours and subtle, refined details.

Nice Collection

Inspired by the romantic spirit of Goya's artistry, the Nice Collection captures the elegance of French vintage design through soft forms and delicate details. New thermofoil door styles (GY2-XS4-01 / GY2-XS1-01 / GY2-XS2-01 / GY2-XS2-03) feature advanced 2700 mm high thermoforming craftsmanship and formaldehyde-free PVC technology. Cream-tone glass doors and arched panels reinterpret classic French aesthetics, creating a refined, nostalgic atmosphere for modern living.

MILAN

The Milan Collection features a dark, modern aesthetic defined by clean, straight lines and precise proportions. A concealed structural system creates a refined floating effect while maintaining strong and reliable functionality.

The floating TV wall, supported by the ShadowMount System, offers a sense of lightness and modernity. Its independent, heavy-duty shelves not only serve as practical storage for books and essentials but also extend seamlessly into a floating countertop.

- 1, Seamlessly integrates a hidden metal frame while delivering a clean, ultra-flat wall surface.
- 2, Engineered to support ultra-thin countertops and independent shelving, achieving exceptional load capacity (e.g., 30 kg/m or more).
- 3, Fully modular and detachable: easily customize and rearrange your wall cabinet layout.

Design Corner.

At first glance, it may simply appear to be the surface of a cabinet or wardrobe. But look closer, and you'll notice the refinement and craftsmanship that define a Holike Design Corner.

Surfaces in the home should do far more than look good. They must withstand daily use, resist scratches, moisture, and time, while still maintaining their beauty.

This is why every Holike Design Corner, from integrated door panels to premium countertops, is crafted from durable, high-quality materials and engineered with precision.

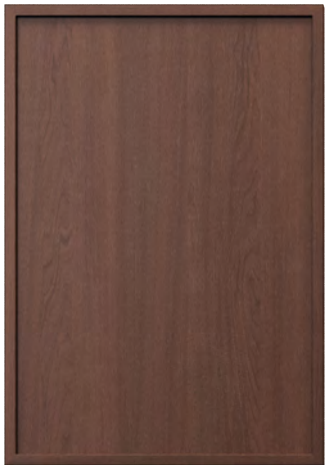

Trust us, in the long run, you'll appreciate the difference.

Kitchen Cabinet

Holike presents seven curated cabinet door finishes including Melamine, UV, PET, PVC, Powder Coating, Lacquer, and Vitrine, along with two countertop options, quartz stone and sintered stone. Each offers a distinct expression of texture, color, and craftsmanship.

Explore the City Chapter collection as a starting point and collaborate with our team to discover the door style and color palette that perfectly complement your vision.

Melamine

slim shaker

recessed inlay

integrated handle

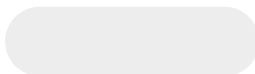

flat panel

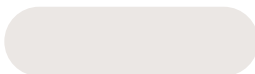

handle - mounted

Melamine comes with a **particleboard (PB) core**, **Plywood (PLY) core** or a **medium-density fiberboard (MDF) core**. The surface provides strong resistance to impact, scratches, and everyday wear. It maintains stable color performance, is easy to clean, and offers a pleasantly smooth tactile feel. This makes it an ideal balance of practicality and design versatility.

MEL-0078

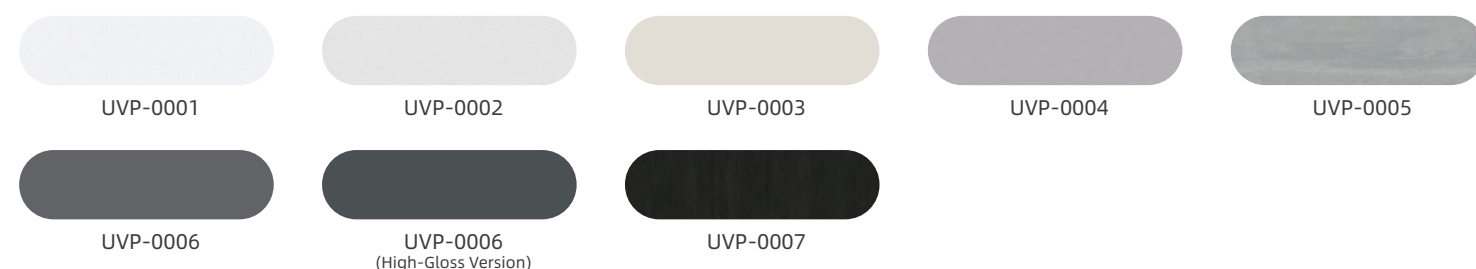

UV

flat panel handle - mounted recessed inlay

UV comes with a **particleboard (PB) core** or a **medium-density fiberboard (MDF) core**. UV fronts deliver a high-gloss, mirror-like finish and a skin-tone surface that enhances light and visual depth. The UV-cured coating provides excellent color stability and strong resistance to scratches. The surface is smooth to the touch and easy to maintain, making it ideal for modern, bright interiors.

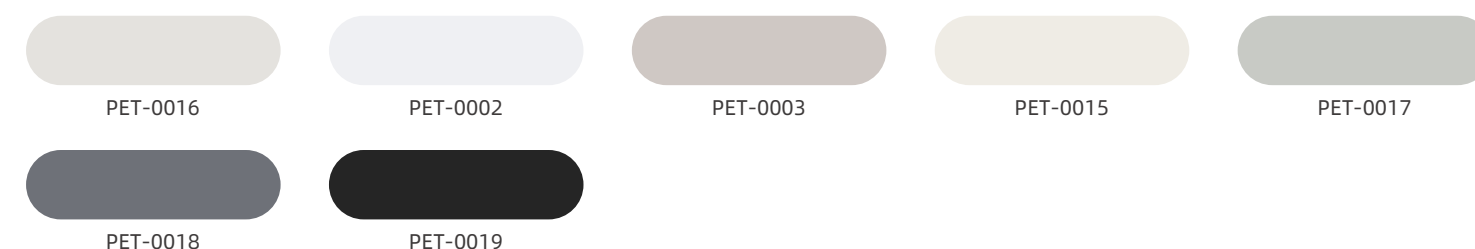

PET

flat panel handle - mounted recessed inlay

PET comes with a **particleboard (PB) core** or a **medium-density fiberboard (MDF) core**. PET fronts feature a soft-touch, matte or high-gloss surface. The material offers strong stain, scratch, and moisture resistance while retaining a refined, contemporary appearance. PET is easy to clean and provides a warm tactile experience.

PVC

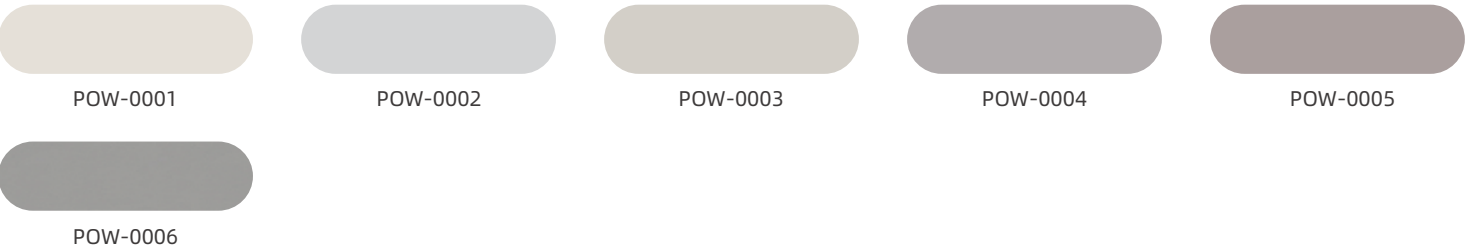

PVC comes with a **particleboard (PB) core** or a **medium-density fiberboard (MDF) core**. PVC fronts are produced by thermoforming a flexible PVC film over the boards, creating seamless edges and a uniform wrapped finish. The material offers strong moisture resistance, stable color performance, and versatile design options. Its smooth, easy-to-clean surface performs well in everyday household use.

Powder Coating

Powder-coating comes with a **medium-density fiberboard (MDF) core**. This finish provides excellent resistance to impact, corrosion, and wear. It delivers a sleek, uniform appearance with a refined tactile quality suited for minimalist interiors.

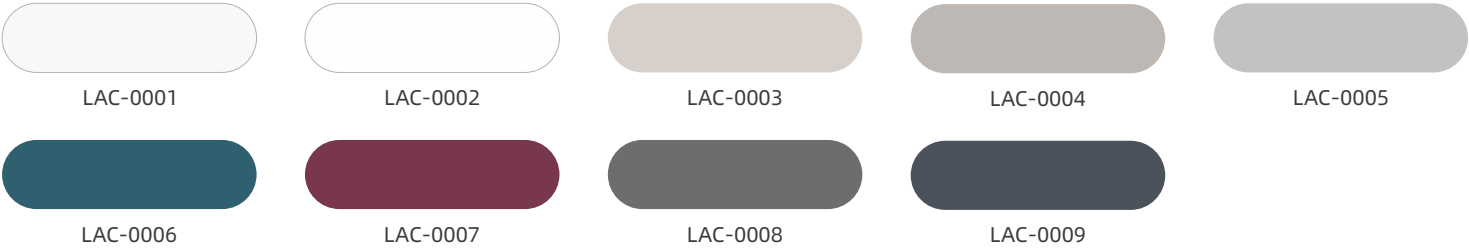

Lacquer

integrated handle flat panel handle - mounted

Lacquer comes with a **medium-density fiberboard (MDF) core**. Lacquered fronts are created through multiple rounds of fine sanding and spray-painting, resulting in a rich, smooth, and elegant surface. The finish offers good color depth, customizable sheen levels, and a premium visual effect. It is pleasantly smooth to the touch and works well for sophisticated, statement-making spaces.

Vitrine

FQ-TW1 FQ-TW2

FS-HB1 FS-HB2

Vitrine fronts feature a metal frame that secures a central tempered glass panel, creating a refined and light-enhancing surface. The material resists scratches and staining while offering a luxurious, modern look with depth and clarity. Glass fronts are easy to wipe clean and elevate the visual sophistication of any cabinetry system.

Quartz Stone

Quartz stone countertops offer strong resistance to stains, scratches, and heat. The surface is smooth, easy to maintain, and delivers a clean, modern look suitable for everyday kitchen use.

Wardrobe

Holike introduces six refined wardrobe door finishes including Melamine, UV, PET, PVC, Powder Coating, and Lacquer. Each material brings its own character through texture, color, and craftsmanship, allowing you to shape storage spaces that feel both functional and beautifully composed.

Just like designing your kitchen cabinets, you can use the City Chapter collection as an inspiring starting point and work with our team to select the wardrobe door style and color palette that best suit your home, whether for serene bedroom wardrobes or well-planned whole-home storage.

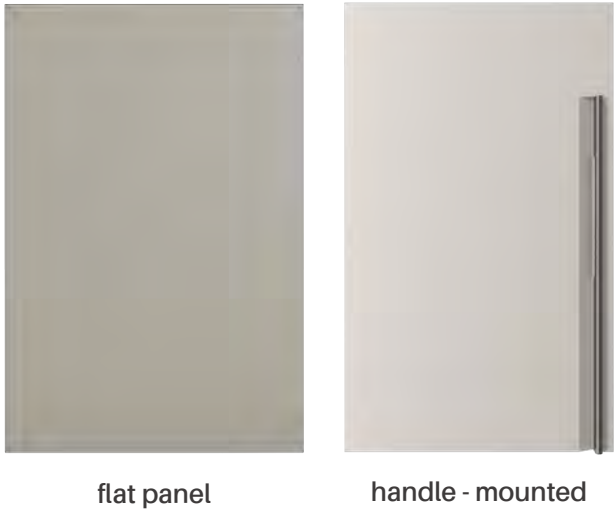

Melamine

Melamine comes with a particleboard (PB) core, **Plywood (PLY) core** or a **medium-density fiberboard (MDF) core**. The surface provides strong resistance to impact, scratches, and everyday wear. It maintains stable color performance, is easy to clean, and offers a pleasantly smooth tactile feel. This makes it an ideal balance of practicality and design versatility.

UV

UV comes with a **particleboard (PB) core** or a **medium-density fiberboard (MDF) core**. UV fronts deliver a high-gloss, mirror-like finish and a skin-tone surface that enhances light and visual depth. The UV-cured coating provides excellent color stability and strong resistance to scratches. The surface is smooth to the touch and easy to maintain, making it ideal for modern, bright interiors.

PET

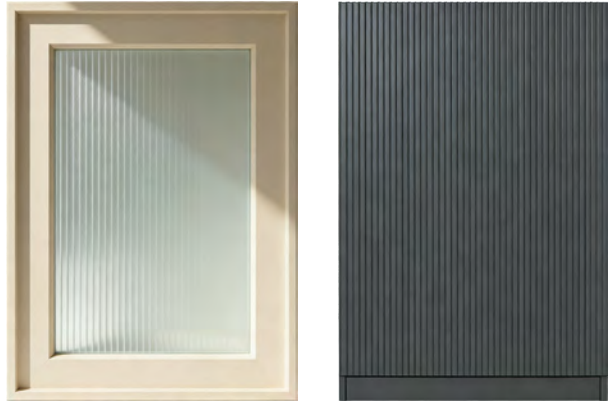

flat panel handle - mounted

PET comes with a **particleboard (PB) core or a medium-density fiberboard (MDF) core**. PET fronts feature a soft-touch, matte or high-gloss surface. The material offers strong stain, scratch, and moisture resistance while retaining a refined, contemporary appearance. PET is easy to clean and provides a warm tactile experience.

PVC

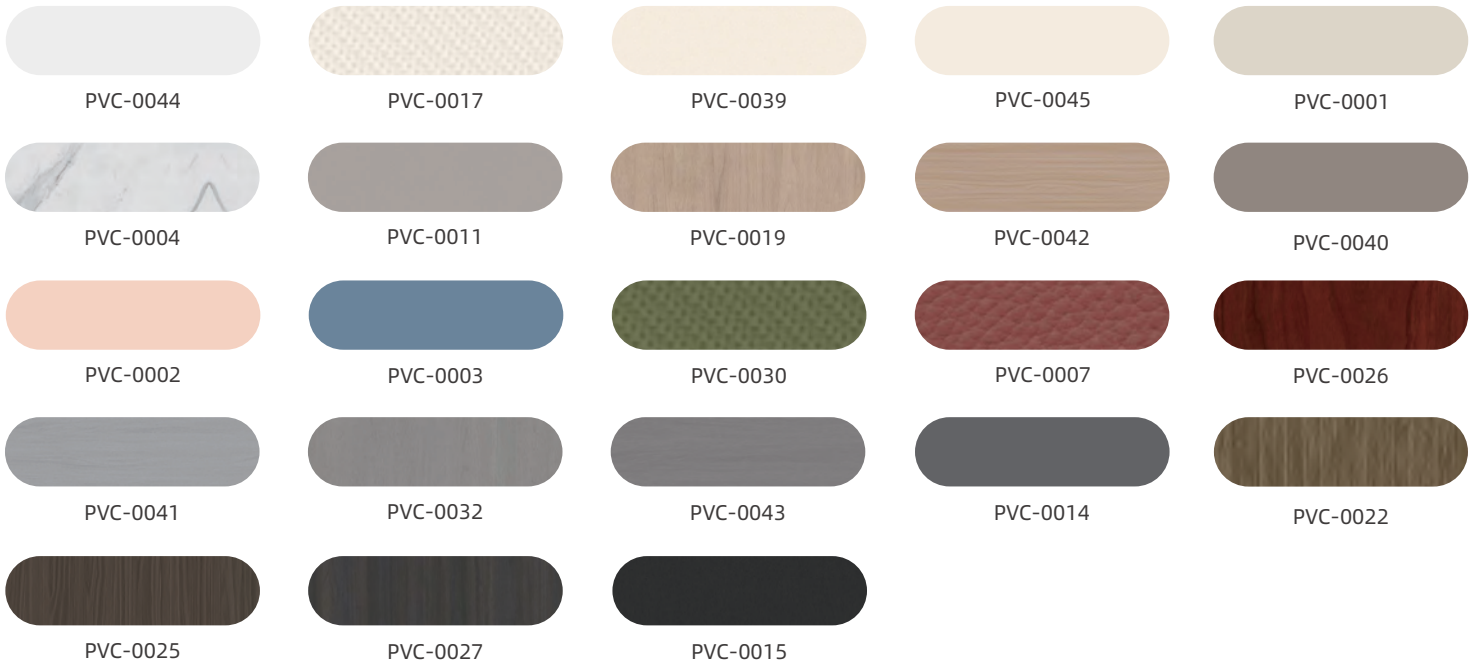

FS-XS-Z3 fluted panel

flat panel handle - mounted shaker

PVC comes with a **particleboard (PB) core or a medium-density fiberboard (MDF) core**. PVC fronts are produced by thermoforming a flexible PVC film over the boards, creating seamless edges and a uniform wrapped finish. The material offers strong moisture resistance, stable color performance, and versatile design options. Its smooth, easy-to-clean surface performs well in everyday household use.

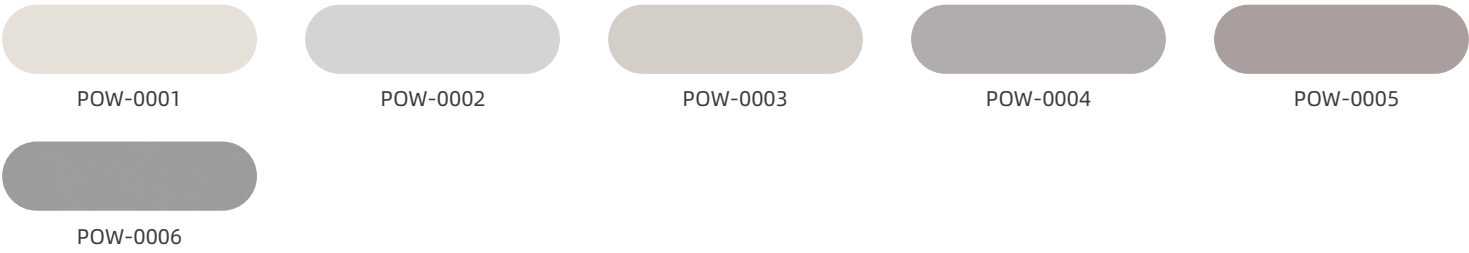

Powder Coating

integrated handle flat panel handle - mounted

Powder-coating comes with a **medium-density fiberboard (MDF) core**. This finish provides excellent resistance to impact, corrosion, and wear. It delivers a sleek, uniform appearance with a refined tactile quality suited for minimalist interiors.

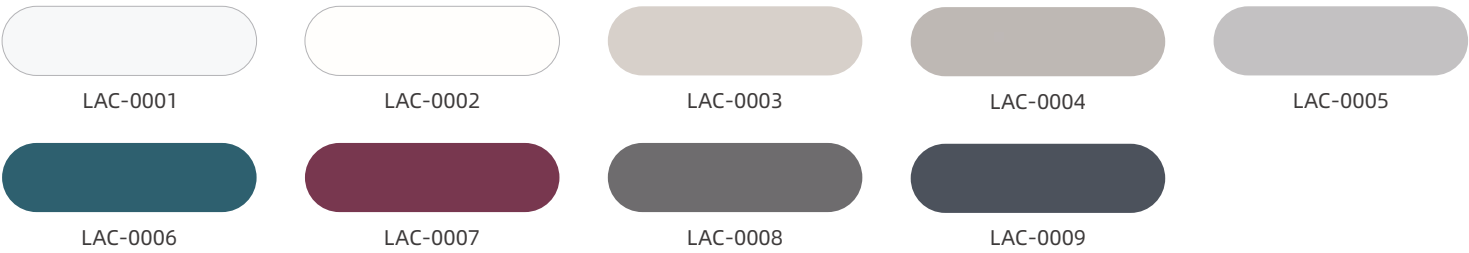

Lacquer

integrated handle flat panel handle - mounted

Lacquer comes with a **medium-density fiberboard (MDF) core**. Lacquered fronts are created through multiple rounds of fine sanding and spray-painting, resulting in a rich, smooth, and elegant surface. The finish offers good color depth, customizable sheen levels, and a premium visual effect. It is pleasantly smooth to the touch and works well for sophisticated, statement-making spaces.

— Handles

Holike offers a curated selection of handles designed to enhance both function and visual detail. Options range from minimalist aluminum profiles to refined metal handles in various shapes and finishes. Each piece is crafted for comfortable grip, long-lasting durability, and seamless integration with different door styles.
