Kitchen Sinks

Nano Coating: Easy to clean,
stain-resistant surface

R20.8 Corner Radius: Large usable
space with no hard-to-clean corners

Silicone Sound-Damping Pads:
Effective noise reduction during use

(Applicable to CBA-3XX, -6XX, -8XX Sinks)

KITCHEN SINKS

CBA-005-800

Dimensions: 760x230x460mm
Code: 1140020030028

Material

Grade A SUS304 stainless steel, 0.9 mm thickness / Brushed finish

Key Features

- Constructed from 0.9 mm thick stainless steel, integrally stretch-formed with a square profile for enhanced strength and durability.
- Features a 760 mm large single basin design for increased capacity; accompanied by a cutting board and small basin for flexible sink area configuration.
- Surface treated with advanced nano-coating for rust resistance, ease of cleaning, and long-lasting brightness and newness.

Remarks

- Suitable for sink cabinets with a minimum width of 840 mm.
- Compatible with both top-mount and under-mount basin installations.

CBA-024-800

Dimensions: 760x450x210mm
Code: 1140020030052

Material

SUS304-grade stainless steel with a brushed finish, thickness 3 + 0.8 mm

Key Features

- Handmade minimalist large single basin featuring 10" radius corners and ultra-narrow borders to maximize sink space
- Sink body without faucet holes; when installed as an under-mount basin, it integrates seamlessly with the countertop, providing an elegant appearance

Remarks

- Suitable for sink cabinets with a minimum width of 840 mm.
- Compatible with both top-mount and under-mount basin installations.

Sink CBA-301

Dimensions: 675*435*234mm
Code: 1140020030079

Material

SUS304 Stainless Steel with Nano-coating

Key Features

- Elongated single-bowl design in harbor style, capable of accommodating large pots.
- Premium food-grade 304 stainless steel with dark grey nano-coating surface treatment, stain-resistant and easy to clean.
- Small rounded corner fillets on all four sides for easy cleaning and increased sink capacity.
- Includes faucet hole (center) and purified water faucet hole (right), eliminating the need for countertop drilling.

Remarks

- > 750

KITCHEN SINKS

Sink CBA-601

Dimensions:750x410x220mm
Code:1140020030081

Material
SUS304 + Antibacterial Nano-Coating

- Key Features
- Nano-embossed stretched large single basin with an ultra-narrow rim without faucet holes. Faucets can be installed at any desired location on the countertop, avoiding interference from inward-opening windows.
 - Premium food-grade 304 stainless steel construction, featuring a 3.0 mm thick panel and 0.8 mm basin body,
 - with an antibacterial nano-coating surface treatment that is stain-resistant and easy to clean.
 - Small rounded corner fillets on all four sides, 140 mm large-diameter drain, and bottom embossed drainage channels to improve drainage efficiency.
 - Includes one 304 stainless steel small basin, suitable for use as a double-bowl compartment.

Remarks
• ≥840

Sink CBA-602

Dimensions:750x410x220mm
Code:1140020030082

Material
SUS304 + Antibacterial Nano-Coating

- Key Features
- Deep gray nano-textured large single bowl with an ultra-narrow rim without faucet holes; the faucet may be installed at any desired position on the countertop to avoid interference with inward-opening windows.
 - Premium food-grade 304 stainless steel, 3.0 mm thick panel with 0.8 mm bowl, deep gray antibacterial nano-coating surface treatment, stain-resistant and easy to clean.
 - Small rounded corner fillets on all four sides, 140 mm large-diameter drain, bottom embossed drainage channels to improve drainage efficiency.
 - Includes one 304 stainless steel small basin, enabling use as a double-bowl compartment.

Remarks
• ≥840

Sink CBA-603

Dimensions:750x430x200mm
Code:1140020030083

Material
SUS304 + Antibacterial Nano-Coating

- Key Features
- Nano hand-crafted large single basin with an ultra-narrow rim without faucet holes; the faucet can be installed at any position on the countertop, preventing interference from inward-opening windows.
 - Premium food-grade 304 stainless steel construction, featuring a 3.0 mm thick panel and 0.8 mm basin body, with an antibacterial nano-coating surface treatment that is stain-resistant and easy to clean.
 - Small rounded corner fillets on all four sides, 140 mm large-diameter drain, bottom embossed drainage channels to improve drainage efficiency.
 - Includes one 304 stainless steel small basin, enabling use as a double-bowl compartment.

Remarks
• ≥750

KITCHEN SINKS

Sink CBA-801

Dimensions:750x460x245mm
Code:1140020030084

Material
SUS304 + Antibacterial Nano-Coating

- Key Features
- Deep gray embossed nano surface treatment, featuring faucet hole (left or center) and purified water faucet hole (right); no faucet hole drilling required on the countertop.
 - Premium food-grade 304-grade stainless steel construction, with a 3.0 mm thick panel and 0.8 mm thick basin body, antibacterial nano-coating surface treatment for stain resistance and ease of cleaning.
 - Offset drain outlet optimizes cabinet space utilization; Counter-controlled drain equipped with a large round mesh strainer, effectively filtering kitchen waste and maintaining cleanliness without manual debris removal.
 - Includes one 304-grade stainless steel small basin and one chopping board, enhancing multifunctional applications such as washing, cutting, and draining.

Remarks
• ≥840

Sink CBA-802

Dimensions:780xx480x240mm
Code:1140020030085

Material
SUS304 Stainless Steel with Nano-coating

- Key Features
- Surface treated with nano-granular embossing; 4.0 mm thick panel and 1.0 mm thick basin body; equipped with a faucet hole on the right and a purified water faucet hole on the left; no faucet hole drilling required on the countertop.
 - Multifunctional components that establish a comprehensive kitchen preparation center.Cutting board x1, 304-grade stainless steel draining board x1, wire basket x1, hanging basket x1, 304-grade stainless steel small basin x1This configuration allows the entire process of washing, cutting, draining, storage, and meal preparation to be efficiently performed within the sink area, optimizing kitchen workflow with ease and convenience.
 - Comes with a 185 mm large-diameter drain and a large filter mesh, featuring a color-matched round cover design and a sloped basin bottom to enhance drainage efficiency.

Remarks
• ≥840

Applicable Cabinet Width:Suitable for Bottom of 900 mm Wall Cabinets

Whole-Home Storage Accessories

Premium Trouser Rack
Specifications: 864x445x71mm
Code: 3000500100213
Color: Khaki

Key Features
Featuring a fully leather-covered trouser hanger, this rack is both fashionable and distinctive.

Jewelry Storage Drawer
Specifications: 864x440x51mm
Code: 3000500100400
Color: Dark Grey

Key Features
Jewelry classification design; smooth drawer operation, easily mastering the art of storage. Dark gray aluminum alloy frame and partitions, leather-covered inner box bottom; simple and elegant.

Premium Accessories Storage Drawer
Specifications: 864x445x71mm
Code: 3000500100212
Color: Khaki

Key Features
Reasonably compartmentalized interior, ideal for storing ties, belts, frequently worn, or daily jewelry.

Light Luxury Trouser Rack
Specifications: 864x465x55.5mm
Code: 3000500100226
Color: Dark Grey

Key Features
Dark grey aluminum alloy frame with built-in anti-slip rubber strip and adjustable trouser hanging rod for convenient use.

Rotating Mirror - S
Specifications: 900x300mm
Code: 1110150000020
Color: Dark Grey

Key Features
Suitable for installation on concealed doors and cabinet side panels; multiple mounting options; 180° rotation, ideal for entryways and walk-in closets.
